

*Commercial Grade Quality  
for Your Home*

## TRANE CLEAN EFFECTS

### Specifications

- Removal of up to 99.98% of particles and allergens from your filtered indoor air.
- An industry-leading clean air delivery rate of 1,200.
- Low operating costs, with no replacement filters to buy.
- Cleaning indicators easily visible on the outside of the unit.
- Easy to clean filters—just vacuum or rinse once every 3 to 9 months (depending on usage).
- Easy installation.
- Quiet operation.
- Minimal ozone generated, less than 5 PPB (parts per billion), well below the 10 PPB FDA voluntary emission limit for medical devices and significantly below some ionic-type room appliances that may reach hundreds of PPBs.
- Low pressure drop.
